

Accounting and Tax Services

Provided by FranTAX, ProfitKeeper's CPA Partner for Snap-on Franchisees

Behind on Your Accounting? Tired of Accountants Who Don't Understand Your Snap-on Business?

Let FranTAX free you from your accounting tasks so you can focus on increasing your sales and managing your operations. FranTAX accountants understand Snap-on's business and process your accounting tasks for you using Quickbooks Online™ ("QBO") and the ProfitKeeper™ interface with Snap-on. No longer do you need to rely on accountants who don't understand the Snap-on business, nor do you need to struggle to do everything yourself; with FranTAX, you get the accounting and tax expertise you need.

What's Required? Your bank and credit card institutions must connect to QBO's banking interface. We will subscribe you to QBO and ProfitKeeper's Snap-on interface as part of our setup.

FranTAX's Accounting Service does all this:

- Assigns you a personal accountant who handles all accounting tasks
- Imports your Snap-on data into your QBO website
- Imports your bank and credit card data from your financial institutions
- Posts your imported bank and credit card transactions
- Creates transactions not yet in QBO and allocates them to proper account
- Contacts you to identify unknown transactions
- Reconciles your Snap-on imported balances and makes adjustments as needed
- Reviews other balances and makes adjustments as needed to correct balance
- Reconciles your bank and credit card statements
- Creates your financial statements

Tax Service:

Our CPAs prepare and file your US and state tax returns. Service includes a secure site for uploading tax documents and storing tax returns for easy 24/7 access. Quarterly estimated tax payment vouchers are also prepared, if needed, and CPAs regularly review your results to offer tax and strategic guidance for your operations. CPAs are also available for questions and assistance so you feel confident that your tax needs are being managed.
